## Blah, blah, blah:

This course is open to traffic, so be careful while racing and in particular @ the turnaround! Riders must wear a helmet at all times when on the course, even when just warming up. Merckx divison means NO AERO EQUIPMENT at all. No tt bars, aero helmets, anything deeper than a 404 is a no no. Single speed bikes must have 2 working hand brakes, unless you ride a fixed gear, then just a front brake is required.
